## EDUCATION

- 

**BACHELOR OF TECHNOLOGY**

WESTERN GOVERNORS UNIVERSITY

2025

- Acquiring diverse skills in Java, Web development, Mobile app development, UX design, Scripting and programming, Web development, Mobile application development, User experience design, Software quality assurance.
  - Certifications from AWS, CompTIA, and ITIL®
  - Knowledge in Java, prepared for tech roles in smart appliances & connected vehicles
- 

**BACK-END SOFTWARE DEVELOPMENT BOOTCAMP**

KINGSBOROUGH COLLEGE

Completed Backend Development Bootcamp, mastering Java, Spring Boot, MySQL, Docker, and API dev. Proficient in scalable backend systems.

## CERTIFICATIONS

- 

**AWS DEVELOPER ASSOCIATE**

OCT 2023

Demonstrating proficiency in developing, deploying, debugging, and optimizing cloud-based applications using AWS tools and best practices.
- 

**AWS SYS OPS ADMINISTRATOR ASSOCIATE**

OCT 2023

Demonstrating proficiency in managing, optimizing, and securing scalable AWS systems.
- 

**AWS SOLUTIONS ARCHITECT ASSOCIATE**

SEP 2023

Demonstrating proficiency in architecting and deploying secure and robust applications on AWS technologies.

## LANGUAGES

- English
- Spanish

## ABOUT ME

- 
- I am a dedicated Software Engineer with a keen interest in cloud engineering and a profound passion for front-end development. Adaptable and enthusiastic, I bring a fervor for innovation to all my technological endeavors. Eager to contribute to dynamic tech projects and teams. Let's connect to explore potential opportunities and share industry insights.

## SKILLS

- Python
  - CSS
  - SQL & NoSQL
  - React
  - Node.js
- HTML
  - JavaScript
  - AWS
  - Java

## PROJECTS

- 

**STATIC WEBSITE**

**Project Static**

My website, hosted on an S3 Bucket and optimized by CloudFront, displays visitor counts using a Lambda function with DynamoDB and handles contact inquiries via another Lambda function with SES. Domain management is through Route 53, and a CI/CD pipeline integrated with GitHub ensures the site is always current.

Services

  - Amazon S3
  - AWS CloudFront
  - Certificate Manager
  - AWS Lambda - boto3
  - Dynamo DB
  - GitHub Actions
  - Terraform
  - API Gateway
  - Simple Email Service
- 

**API CALLS WITH AMAZON BEDROCK**

**Project Bedrock**

Project Bedrock is combining Amazon Bedrock, AWS Lambda, API Gateway, and Amazon S3 to provide a range of services based on inputs through API calls in Postman.

Services

  - Amazon Bedrock
  - Postman
  - Amazon API Gateway
  - AWS Lambda - boto3
  - Amazon S3
- 

**TRANSLATING APPLICATION**

**Project Translate**

This project is a web-based translation application hosted on GitHub Pages, featuring a React frontend that sends API requests to Amazon API Gateway. The requests are processed by an AWS Lambda function interfacing with Amazon Translate, with translation results displayed to users on the web interface.

Services

  - Github/Github Pages
  - Amazon API Gateway
  - AWS Lambda
  - Amazon Translate
- 

**PARAPROFESSIONAL | JAN 2017 - PRESENT**

**NYC DEPARTMENT OF EDUCATION, BRONX**

  - Assisted teachers with classroom management and provided targeted instruction for individual students and small groups.
  - Supported students with special needs in inclusive settings, including implementing IEPs and BIPs.
  - Provided curriculum accommodations and assisted with adaptive technology.
  - Managed challenging behaviors, ensuring positive reinforcement and support.
- 

**SCHOOL AIDE | JAN 2013 - DEC 2016**

**NYC DEPARTMENT OF EDUCATION, BRONX**

  - Monitored students during non-classroom activities, ensuring safety and adherence to school rules.
  - Assisted with administrative tasks, including photocopying, filing, and data entry.
  - Supported field trips, special projects, and after-school programs.
  - Served as a liaison between teachers, parents, and students, communicating student progress and behavior.
  - Aided students with mobility and physical disabilities.
